Green crackers to lighten Air Pollution Levels likely to Dip This Year, But Customers Will Have To Cough Up More

Pollution Levels likely to Dip This Year, But Customers Will Have To Cough Up More

Barring last year's leftover goods, dealers across the two states say they have stocked up only on green crackers this year.

Venu Lanka & Nirupa Vatyam | 106

In the Greater Hyderabad Municipal Corporation (GHMC), air quality has deteriorated following the use of fireworks. The same is likely to apply to people of AP as well. In 2020, green fireworks were permitted only on green fireworks days and traders are still following the same guidelines.

Barring last year's leftover goods, dealers across the two states say they have stocked up only on green crackers this year. "All the stock we received this year is eco-friendly," said K Venkatesh, general secretary, Telangana Fire Works Dealers Association (TFWA), who also owns wholesale shops in Karimnagar and Madakasira.

He said Telangana gets about 90% to 95% of its stock from Madhya Pradesh and the remaining from North India.

And this year's Diwali might come at the end of November, but dealers say they are expected to cut down on pollution by 40% to 45% for them.

That is, however, unlikely to dull the sales. "Even though they are 15% more expensive on an average than conventional crackers, there is tremendous demand for it," said N Malleswar Rao, a wholesale trader from Vijayanagara.

And this is set to come as good news for the industry that suffered serious losses in 2020, owing to Covid-19. "We had to suffer a lot last year. We are hoping more people will come out to buy green crackers this time," said Sridhar M, a wholesaler from Hyderabad.

SAFETY FIRST THIS FESTIVE SEASON

With multiple cracker-related injuries occurring each year, doers weigh in on precautions that need to be taken.

Farheen Hussain | timesgroup.com

Bengaluru: Australia Prime Minister Scott Morrison's latest announcement that his country is ready to have its borders open to the world, has filled Rachna Kumari, a resident of Vijayanagar in Bengaluru, with newfound hope. The pandemic had led her to defer a long-planned offer from an Australian University twice—once in 2020 and again early this year. Now, she hopes to fly out.

"I had put the offer on hold in 2020 because my family was worried about the developing pandemic situation here. In 2021, borders closed and I again had to defer a long-planned offer from an Australian University twice—once in 2020 and again early this year. Now, she hopes to fly out.

Ayodhya decked up for 'Deepotsav'

Officials to make suitable arrangements for security and carry out monitoring of the event. Sufficient seating arrangements should also be made for the seers visiting the city for the grand function.

Officials to make suitable arrangements for security and carry out monitoring of the event. Sufficient seating arrangements should also be made for the seers visiting the city for the grand function.

Green brigade happy

The environment-conscious are delighted with stores stocking up on green crackers.

This is a heartening change that's brought about by science, here the government ensures that only green fireworks are used.

Only green fireworks are used. These are made of potassium nitrate and sulphur and are completely eliminated. They reduce SO₂ and NO_x emissions; generate less heat.

Co-op key to India's \$5 tn economy: Shah

Times News Network

Anand: Stating that Prime Minister Narendra Modi had created the ministry of cooperation with the motto of 'prosperity with cooperation', union home and cooperative minister Anil Kumar Shah said that the cooperative sector will play a major role in India being a US\$ 5 trillion economy.

During his maiden visit to Anand, Shah appealed to cooperatives like Amul to look ahead.

Shah said that a lot of changes are required in the cooperative movement in India. A charter for the newly formed ministry is being prepared with the core idea of 'sahakar aur samrudhi' (cooperation to wealth).

Shah pointed out that as Amul completed 75 years, the country has failed to make any significant investments as it should have.

"Had a foreign company completely taken over Amul, it would have been much pomp and show but it is not. Amul does not need credit. The brand's name and reputation is its strength," he said.

Shah said that guided by Sardar Vallabhbhai Patel and T. T. Krishnamachari, the farmers sowed the seeds of a foundation with a vision of a 'White Revolution' that has grown as a big business tree. He also mentioned how Dr Verghese Kurien expanded Amul from a village to a nation.

"From 200 litres at the time of establishment, Amul today has the capacity of processing and storing 30 million litres of milk," he said.

Shah said the dream of 'White Revolution' envisaged by Lal Bahadur Shastri has been realized.
